A

Aragon, A., *see* Bachstez, M.
Asenjo, C. F., some of the constituents of the tuber of coqui (*Cyperus rotundus* L.). III. The sugars, 88

B

Bachstez, M., and Aragon, A., notes on Mexican Drugs. II. Characteristics and composition of the fatty oil from "Gusanos de Maguey" (caterpillars of *Aceiocneme hesperiaris*), 145
Barry, R. H., Hartung, W. H., and Grubb, T. C., the action of some organo-mercurials and some copper salts on ringworm fungi, 43
Beal, G. D., *see* Liddell, R. W.
Beasley, J. L., Jr., and Harris, L. E., a chemical study of Oklahoma plants. V. *Ephedra nevadensis* Watson, 171
Bell, F. K., and Krantz, J. C., Jr., the heavy metals test for volatile oils, 533
Bell, F. K., estimation of magnesium in solution of citrate of magnesia, 312
Bell, S. A., and Taub, A., derivatives from hydrogenated castor oil. I. 12-Hydroxystearic acid and its alkyl esters, 75
Bender, R. C., *see* Supplee, G. C.
Benson, W. M., and Edwards, L. D., the utilization of pigeons for the biological assay of *Adonis vernalis*, N. F. VI, 49.
Bird, J. C., ultraviolet absorption of surface anesthetics, 151.
Blumberg, B. L., sterility tests on chemical preparations for parenteral use, 245
Bodansky, O., Gold, H., and Zahn, W., the toxicity and laxative action of sodium fumarate, 1
Boughton, L. L., the effects of life cycle therapeutic dosage administration of drugs to albino rats. II. On activity, maze learning and relearning, 240.
Braun, H. A., and Miller, L. C., the assay of digitalis. III. The potency of U. S. P. XII Digitalis, 225.

INDEX TO SUBJECTS

A

Adonis vernalis, N. F. VI, the utilization of pigeons for the biological assay of, 49
Alkaloidal chemistry, relation of, to inorganic, and the use of bromauric acid as a reagent for inorganic microcrystal tests, 177
Allantoin, allantoin dipiperazine and urea, a note on the healing action of (preliminary report), 263
Aloe and podophyllum, the influence of, on the flow of hepatic bile in the dog, 53
Aloe-emodin, chrysophanic acid and emodin. Constituents in cascara sagrada extract. IV, 161
Aloes, a color test for differentiating barbaloin and isobarbaloin and identifying different varieties of, 535
Aminobenzoic and pyridine carboxylic acids, the fungistatic properties of, a resonance effect, 97
Ammonium salts, germicidal activity of some quaternary, 51
Anesthetics, ultraviolet absorption of surface, 151
Antiseptics in various ointment bases, a study of, 105
Arsenic in organic arsenical compounds, a note on the determination of, 200
Athlete's foot and its control, a study of. II, 284
Atropine sulfate, pyridine, piperidine and thiamin chloride, growth effects of, on stramonium seedlings, 257

B

Bacteriostatic properties of certain derivatives of thiophene, 281
Balsam poplar or tacamahac, nomenclature confusion in the case of the, 220
Barbaloin and isobarbaloin, color test for differentiating, and identifying different varieties of aloes, 535
Barringtonia acutangula Gaertn., chemical examination of the seeds of, 193
Benzoic acid for white rats, the toxicity of, 253
Bile salts, an evaluation of the cathartic action of, following acute and chronic administration to mice, 60
Bismuth triglycollamate, sodium, 190
Blood potassium of anesthetized animals, effect of picrotoxin on the, 173
Blood pressure principles of hog kidney extracts, electrophoretic separation of the, 19
Book reviews
Advances in Colloid Science, 159
Anhydrous Aluminum Chloride in Organic Chemistry, 64
Chemical Analysis. Volume II, Chromatographic Adsorption Analysis, 286
Chemistry and Manufacture of Cosmetics, 538
Chemistry and Physiology of the Vitamins, 287
Chemistry of Organic Medicinal Products, 27
Essentials of Endocrinology, 28
Experiments in Organic Chemistry, 537
First Aid, Surgical and Medical, 537
Food Analysis, 26
Identification of Pure Organic Compounds, 537
Introduction of Materia Medica and Pharmacology, 536
Introductory Organic Chemistry, with Certain Chapters of Biochemistry, 160
Materia Medica and Pharmacology, an Introductory Text, 27
Minerals in Nutrition, 287
Pharmacology and Dental Therapeutics, 28
Preparacion de Productos Quimicos y Quimico-Farmaceuticos, 288
Rat in Laboratory Investigation, 287
Semimicro Qualitative Analysis, 95
Standardized Plant Names, 159
Synopsis of Materia Medica, Toxicology and Pharmacology, 223
Temperature, Its Measurement and Control in Science and Industry, 96
Textbook of Clinical Parasitology, 223
Textbook of Dental Pharmacology, Materia Dentica and Pharmaco-Therapeutics, 224
Textbook of Materia Medica, Pharmacology and Therapeutics, 536
Bromauric acid, the use of, as a reagent for inorganic microcrystal tests, the relation of alkaloidal chemistry to inorganic and, 177

C

Calycanthine, the action of, 513
Capsicum, tabasco a substitute for, 84
Carbohydrates and salines, the influence of, upon the separation of chloral alcoholate, 203
Carnosol. *Salvia carnosa* (Dougl.), II, 37
(Carvomenthenes), a chemical study of the isomeric Δ^1-menthenes, 525
Cascara sagrada extract, constituents in. IV. Aloe-emodin, chrysophanic acid and emodin, 161
Castor oil, derivatives from hydrogenated. I. 12-Hydroxystearic acid and its alkyl esters, 75
Celastrol, part IV, the constitution of, 529
Celastrol, spectrographic characterization and color tests, 315
Chalk mixture, some notes on, 250
Chionanthus, the pharmacognosy of, 129
Chloral alcoholate, the influence of carbohydrates and salines upon the separation of, 203
Chlorine preparations of the sodium hypochlorite type, storage factors affecting the deterioration rates of certain. I. The effect of diffused daylight, 183
Chlorine preparations of the sodium hypochlorite type, storage factors affecting the deterioration rates of certain. II. The effect of direct sunlight, 186
Chlorine preparations of the sodium hypochlorite type, storage factors affecting the deterioration rates of certain. III. (*A*) The effect of constant moderate heat, (*B*) The effect of storage in a dark room and (*C*), The effect of refrigeration, 188
Chrysophanic acid, aloe-emodin and emodin. Constituents in cascara sagrada extract. IV, 161
Citrate of magnesia, estimation of magnesium in solution of, 312
Cod-liver oil, comparative stability of vitamin A in, and in oleovitamin A and D, 521
Cod liver oil, reference, the preparation and vitamin A and vitamin D standardization of the second U. S. P., by the U. S. P. vitamin advisory board, 124
Color test for differentiating barbaloin and isobarbaloin and identifying different varieties of aloes, 535
Convallaria majalis leaves, the potency and stability of a new extract of, 169
Copper salts, the action of some organo-mercurials and some, on ringworm fungi, 43
Coqui (*Cyperus rotundus* L.), some of the constituents of the tuber of. III. The sugars, 88
Cornus Nuttallii, a phytochemical study of the root bark and fruit of, 126
(*Cyperus rotundus* L.), some of the constituents of the tuber of coqui. III. The sugars, 88

D

Deacetyldigilanids *A* and *B*, digoxin, and digilanids *A*, *B* and *C*, comparison of, 236
Digilanids *A*, *B* and *C*, digoxin, and deacetyl-digilanids *A* and *B*, comparison of, 236
Digitalis purpurea naturalized in Newfoundland, 248
Digitalis, the assay of. III. The potency of U. S. P. XII digitalis, 225
Digoxin, digilanids *A*, *B* and *C*, and deacetyldigilanids *A* and *B*, comparison of, 236
Disguising agents for distasteful drugs, method of evaluating relative efficacy of, 298
Disodium tartrate and fumarate and magnesium fumarate, the comparative toxicity and the cathartic efficiency of, for the mouse and rabbit, 12
Drugs, distasteful, method of evaluating relative efficacy of disguising agents for, 298
Drugs, notes on Mexican. II. Characteristics and composition of the fatty oil from "Gusanos de Maguey" (caterpillars of *Acentrocneme hesperiaris*), 145
Drugs, the effects of life cycle therapeutic dosage administration of, to albino rats. II. On activity, maze learning and relearning, 240

E

Electrophoretic separation of the blood pressure principles of hog kidney extracts, 19
Emodin, chrysophanic acid and aloe-emodin. Constituents in cascara sagrada extract. IV, 161
Enteric coatings, a new method of testing, 99
Ephedra Nevadensis Watson. A chemical study of Oklahoma plants. V, 171
Ergonovine, ergotoxine and ergotamine, the elimination of, 109
Ergonovine, the effect of estrone and stilbestrol on the response of rabbits' uteri to, 46
Ergotamine, ergotoxine and ergonovine, the elimination of, 109
Ergotoxine, ergotamine and ergonovine, the elimination of, 109
Ergots, wheat and rye, the pharmacognosy of domestic, 136
Eriodictyon californicum, a histological study of, 209
Estradiol dipropionate and testosterone acetate and propionate, effects of, upon the resistance of the rat to evipal sodium, nostal, pernoston and pentobarbital sodium, 116
Estrone and stilbestrol, the effect of, on the response of rabbits' uteri to ergonovine, 46
Evipal sodium, nostal, pernoston and pentobarbital sodium, effects of estradiol dipropionate and testosterone acetate and propionate upon the resistance of the rat to, 116

F

Fumurate and tartrate, disodium, and magnesium fumarate, the comparative toxicity and cathartic efficiency of, for the mouse and rabbit, 12
Fumarate, magnesium, for the mouse and rabbit, the comparative toxicity and cathartic efficiency of disodium tartrate and fumarate and, 12
Fumarate, sodium, the toxicity and laxative action of, 1
Fungi, the action of some organo-mercurials and some copper salts on ringworm, 43
Fungistatic properties, the, of pyridine carboxylic and aminobenzoic acids, a resonance effect, 97

G

Germicidal activity of some quaternary ammonium salts, 51
Glycine, observations on the toxicity of, the pharmacology of sodium hydroxyacetate with, 306
Glycogen reserves, liver, the influence of thiamin, riboflavin, pantothenic acid and vitamin B_6 on. Interrelated vitamin requirements, 194
"Gusanos de Maguey" (caterpillars of *Acentrocneme hesperiaris*), characteristics and composition of the fatty oil from. Notes on Mexican drugs. II, 145

H

Heavy metals test for volatile oils, 533
Helonias, the phytochemistry of. I. Preliminary examination of the drug, 519
Hog kidney extracts, electrophoretic separation of the blood pressure principles of, 19
Hydriodic acid, a study of syrup of, 265
Hydrogen ion concentration of solutions of sodium citrate used for preservation of fluid blood, 249
Hydrogenated castor oil, derivatives from. I. 12-Hydroxystearic acid and its alkyl esters, 75
3-Hydroxyphthalic acid, the synthesis of, 202
12-Hydroxystearic acid and its alkyl esters. Derivatives from hydrogenated castor oil. I, 75

I

Inorganic, relation of alkaloidal chemistry to, and the use of bromauric acid as a reagent for inorganic microcrystal tests, 177
Iodide in the presence of interfering substances, determination of, 103
Isobarbaloin and barbaloin, color test for differentiating and identifying different varieties of aloes, 535
Isomeric Δ^1-menthenes (carvomenthenes), a chemical study of the, 525
Isophorone and some of its derivatives, a chemical study of, 527
Isotonic solutions, a study of, 270

K

Ketone alcohols. I. Derivatives of 2-methyl-pentanol-2-one-4, 516
Ketone alcohols. II. Derivatives of the polymerization of pentanone-3, 518
Kidney extracts, hog, electrophoretic separation of the blood pressure principles of, 19

L

Levulinic acid, the nontoxicity of, 217

M

Magnesium, estimation of, in solution of citrate of magnesia, 312
Magnesium fumarate for the mouse and rabbit, the comparative toxicity and cathartic efficiency of disodium tartrate and fumarate and, 12
Mentha piperita L., Florida volatile oils. II, 65
Menthol, the assay for, 85
Mercurials, organic: The influence of structure on absorption and excretion, 278
Mercurials, organo-, and some copper salts on ringworm fungi, the action of some, 43
Mercuric oxide ointment, yellow, U. S. P. XI, the assay of, 56
Methenamine, the quantitative determination of, 15
2-Methyl-pentanol-2-one-4, derivatives of. Ketone alcohols. I, 516
Morpholino and some other compounds, preliminary antispasmodic tests of a series of, 57

N

Nostal, pernoston, evipal sodium and pentobarbital sodium, effects of estradiol dipropionate and testosterone acetate and propionate upon the resistance of the rat to, 116

O

Oleovitamin A and D, comparative stability of vitamin A in cod-liver oil and in, 521
Organic mercurials: The influence of structure on absorption and excretion, 278
Organo-mercurials and some copper salts on ringworm fungi, the action of some, 43

P

Pantothenic acid, thiamin, riboflavin and vitamin B_6 on liver glycogen reserves, the influence of. Interrelated vitamin requirements:, 194
Pentanone-3, derivatives of the polymerization of. Ketone alcohols. II, 518
Pentobarbital sodium, evipal sodium, nostol and pernoston, effects of testosterone acetate and propionate and estradiol dipropionate upon the resistance of the rat to, 116
Pernoston, evipal sodium, nostal and pentobarbital sodium, effects of testosterone acetate and propionate and estradiol dipropionate upon the resistance of the rat to, 116
Pharmacy, the patron saints of, 89
Phenothiazine pharmaceuticals, assay methods for, 47
Phytolacca americana Linné (Fam. phytolaccaceae) a phytochemical and pharmacological study of the berries of, 81
Picrotoxin, effect of, on the blood potassium of anesthetized animals, 173
Piperidine, pyridine, atropine sulfate and thiamin chloride, growth effects of, on stramonium seedlings, 257
Plants, a chemical study of Oklahoma. V. *Ephedra Nevadensis* Watson, 171
Podophyllum and aloe, the influence of, on the flow of hepatic bile in the dog, 53
Populus candicans Aiton, nomenclature confusion of, 140
Prescriptions, incompatibilities in. V. The use of tribasic calcium phosphate and silica gel in capsules to prevent liquefaction, 213
Pycanthemum muticum (Michx.) Pers. Assay methods and minor constituents. Florida volatile oils. III, 72
Pyridine carboxylic and aminobenzoic acids, the fungistatic properties of, a resonance effect, 97
Pyridine, piperidine, atropine sulfate and thiamin chloride, growth effects of, on stramonium seedlings, 257

Q

Quinine sulfamate, 154
Quinine, the determination of, and the assay of quinine and strychnine in mixtures, 9

R

Red Squill (*Urginea maritima*), the fortification of, by means of an extract of red squill, 142
Riboflavin, thiamin, pantothenic acid and vitamin B_6 on liver glycogen reserves, the influence of. Interrelated vitamin requirements: 194
Rye and wheat ergots, the pharmacognosy of domestic, 136

S

Silica gel and tribasic calcium phosphate in capsules to prevent liquefaction, the use of. Incompatibilities in prescriptions. V, 213
Salines and carbohydrates, the influence of upon the separation of chloral alcoholate, 203
Salvia carnosa (Dougl.). I. A phytochemical study, 33
Salvia carnosa (Dougl.). II. Carnosol, 37
Sodium bismuth triglycollamate, 190
Sodium citrate used for preservation of fluid blood, the hydrogen ion concentration of solutions of, 249
Sodium fumarate, the toxicity and laxative action of, 1
Sodium hydroxyacetate, the pharmacology of, with observations on the toxicity of glycine, 306
Sodium hypochlorite type, storage factors affecting the deterioration rates of certain chlorine preparations of the. I. The effect of diffused daylight, 183
Sodium hypochlorite type, storage factors affecting the deterioration rates of certain chlorine preparations of the. II. The effect of direct sunlight, 186
Sodium hypochlorite type, storage factors affecting the deterioration rates of certain chlorine preparations of the. III. (*A*) The effect of constant moderate heat, (*B*) The effect of storage in a dark room and (*C*) the effect of refrigeration, 188
Squill, red (*Urginea maritima*), the fortification of, by means of an extract of red squill, 142
Sterility tests on chemical preparations for parenteral use, 245
Sterilization, a fast method of dry, low-heat, 205
Stilbestrol and estrone, the effect of, on the response of rabbits' uteri to ergonovine, 46
Stramonium, a study of wild and cultivated, in Puerto Rico, 166
Stramonium seedlings, growth effects of pyridine, piperidine, atropine sulfate and thiamin chloride on, 257
Strychnine and quinine in mixtures, the determination of quinine and the assay of, 9
Strychnine. X. Comparative accuracies of stomach tube and intraperitoneal injection methods of bioassay, 113
Strychnine, studies on the elimination of, 289
Strychnos species, a study of a, 295
Sugars, the. Some of the constituents of the tuber of coqui (*Cyperus rotundus* L.). III, 88
Sulfamate, quinine, 154
Sulfanilamide and sulfapyridine in infected mice, inhibiting effect of various compounds on curative action of, 198
Sulfapyridine and sulfanilamide in infected mice, inhibiting effect of various compounds on curative action of, 198
Sulfathiazole sodium, the vapor pressure of some hydrates of, 157

T

Tabasco a substitute for capsicum, 84
Tacamahac or balsam poplar, nomenclature confusion in the case of the, 220
Tartrate and fumarate, disodium and magnesium fumarate, the comparative toxicity and cathartic efficiency of, for the mouse and rabbit, 12
Testosterone acetate and propionate, effects of, and of estradiol dipropionate upon the resistance of the rat to evipal sodium, nostal, pernoston and pentobarbital sodium, 116
Theobromine in tablet mixtures, the determination of, 24

Therapeutic dosage administration of drugs to albino rats, the effects of life cycle. II. On activity, maze learning and relearning, 240
Thiamin chloride, pyridine, piperidine and atropine sulfate, growth effects of, on stramonium seedlings, 257
Thiamin, roboflavin, pantothenic acid and vitamin B_6 on liver glycogen reserves, the influence of. Interrelated vitamin requirements, 194
Thiamine and cobra venom, pharmacological interactions of, 146
Thiophene, bacteriostatic properties of certain derivatives of, 281
Tribasic calcium phosphate and silica gel in capsules to prevent liquefaction, the use of. Incompatibilities in prescriptions. V, 213
Triglycollamate, sodium bismuth, 190

U

Ultraviolet absorption of surface anesthetics, 151
Urea, allantoin and allantoin dipiperazine, a note on the healing action of (preliminary report), 263
(*Urginea maritima*), the fortification of red squill, by means of an extract of red squill, 142

V

Venom, cobra and thiamine, pharmacological interactions of, 146
Vitamin A and vitamin D standardization of the second U. S. P. reference cod liver oil, the preparation and, by the U. S. P. vitamin advisory board, 124
Vitamin A in cod-liver oil and in oleovitamin A and D, comparative stability of, 521
Vitamin B_6, thiamin, riboflavin and pantothenic acid on liver glycogen reserves, the influence of. Interrelated vitamin requirements, 194
Vitamin requirements, interrelated: The influence of thiamin, riboflavin, pantothenic acid and vitamin B_6 on liver glycogen reserves, 194
Volatile oils, Florida. II. *Mentha piperita* L., 65
Volatile oils, Florida. III. *Pycanthemum muticum* (Michx.) Pers. Assay methods and minor constituents, 72
Volatile oils, the heavy metals test for, 533

W

Wheat and rye ergots, the pharmacognosy of domestic, 136

Z

Zinc peroxide, 523
